Subject: Update on Selenium Technical Subcommittee Activiies

An update from the SeTSC Co Chairs:

A Se TSC teleconference was held on April 4 for Se TSC members. The meeting minutes will be sent out and uploaded to the wiki site by Tuesday, April 23. We would like to keep you informed that the Se TSC has been working hard to develop a Data Analysis Workplan for moving forward on developing the site specific Se criteria for Lake Koocanusa. As this plan is still in development by the Se TSC, the May teleconference will also be limited to Se TSC members. The Data Analysis WorkPlan will be distributed to all observers upon completion. In addition to email correspondence and meeting minutes, observers can stay informed via the wiki site. Currently, a MRC meeting is in the planning phase for early June.

Thank you for your patience during this last month as we sort out the process for communicating information to all interested parties. Please feel free to contact us with any questions that you may have.

Jody Fisher & Lauren Sullivan

Se TSC Co-Chairs
